

Faculty of Economics / ECONOMICS (4 years, 240 ECTS credits) / Traffics Management

Course:	Traffics Management			
Course ID	Course status	Semester	ECTS credits	Lessons (Lessons+Exercises+Laboratory)
63	Optional	4	2	2+0+0
Programs	ECONOMICS (4 years, 240 ECTS credits)			
Prerequisites	For successful studying of this course certain knowledge of the basic economic disciplines and in the field of management is needed.			
Aims	The leitmotif of teaching the subject Transport Management is to provide students with basic knowledge of transport management which, no doubt, is one of the most important economic activities in modern conditions.			
Learning outcomes				
Lecturer / Teaching assistant	Prof.dr Ljubinko Dedović			
Methodology	Topics important both from the theoretical and practical points of view are to be studied. For their processing some preparation is necessary, which includes reading of appropriate texts. Theoretical preparation will allow class discussions on theoretical and practical issues in the field of transport economics.			
Plan and program of work				
Preparing week	Preparation and registration of the semester			
I week lectures	The importance of transport management			
I week exercises	The importance of transport management			
II week lectures	Defining the concept of transport. Forms and types of transport.			
II week exercises	Defining the concept of transport. Forms and types of transport.			
III week lectures	Traffic Market – Characteristics and specificity of transport services. Characteristics and specificities of the demand for transport services. Characteristics and specificities of the transport supply.			
III week exercises	Traffic Market – Characteristics and specificity of transport services. Characteristics and specificities of the demand for transport services. Characteristics and specificities of the transport supply.			
IV week lectures	Specificities of establishing balance in the transport market. The concept and characteristics of the transport market.			
IV week exercises	Specificities of establishing balance in the transport market. The concept and characteristics of the transport market.			
V week lectures	Modern transport policy – General framework for defining the transport policy. Transport regulation			
V week exercises	Modern transport policy – General framework for defining the transport policy. Transport regulation			
VI week lectures	Liberalization and deregulation of transport markets. The concept and scope of deregulation of transport markets.			
VI week exercises	Liberalization and deregulation of transport markets. The concept and scope of deregulation of transport markets.			
VII week lectures	Harmonization of economic conditions.			
VII week exercises	Harmonization of economic conditions.			
VIII week lectures	Midterm test			
VIII week exercises	Midterm test			
IX week lectures	European Union Transport Policy in the modern period			
IX week exercises	European Union Transport Policy in the modern period			
X week lectures	The cost prices of transport services and the factors on which they depend			
X week exercises	The cost prices of transport services and the factors on which they depend			
XI week lectures	Formation of prices and pricing policy in transport - general approach and principles of the formation of transport prices. Railway tariffs and tariff policies.			
XI week exercises	Formation of prices and pricing policy in transport - general approach and principles of the formation of transport prices. Railway tariffs and tariff policies.			

XII week lectures	Formation of prices and pricing policy in maritime transport. Pricing in air transport.					
XII week exercises	Formation of prices and pricing policy in maritime transport. Pricing in air transport.					
XIII week lectures	Transport as a factor in tourism development					
XIII week exercises	Transport as a factor in tourism development					
XIV week lectures	Transport Policy in Montenegro					
XIV week exercises	Transport Policy in Montenegro					
XV week lectures	Transport Policy in Montenegro					
XV week exercises	Transport Policy in Montenegro					
Student workload	Per week 2 ECTS x 40/30 = 2.66 hours Structure: 2 hours of lectures 0.66 hours of independent work Per semester Total workload for the course 2 ECTS x 30 = 60 hours Structure: Teaching and the final exam: 2.66 hours x 16 weeks = 42.66 hours Necessary preparation before the start of the semester (paperwork): 2.66 hours X 2 weeks = 5.32 hours Additional work for the preparation and taking the make-up exam: 12 hours					
Per week			Per semester			
2 credits x 40/30=2 hours and 40 minuts 2 sat(a) theoretical classes 0 sat(a) practical classes 0 excercises 0 hour(s) i 40 minuts of independent work, including consultations			Classes and final exam: 2 hour(s) i 40 minuts x 16 =42 hour(s) i 40 minuts Necessary preparation before the beginning of the semester (administration, registration, certification): 2 hour(s) i 40 minuts x 2 =5 hour(s) i 20 minuts Total workload for the subject: 2 x 30=60 hour(s) Additional work for exam preparation in the preparing exam period, including taking the remedial exam from 0 to 30 hours (remaining time from the first two items to the total load for the item) 12 hour(s) i 0 minuts Workload structure: 42 hour(s) i 40 minuts (cources), 5 hour(s) i 20 minuts (preparation), 12 hour(s) i 0 minuts (additional work)			
Student obligations			Given that this is a course study involving active participation of students in class, it is necessary to regularly attend classes.			
Consultations			After lessons			
Literature			Dr Vladan Božić, Ekonomija saobraćaja, Ekonomski fakultet, Beograd, 2011. (Economics of Transport, Faculty of Economics, Belgrade 2011)			
Examination methods			Assessment methods: Activity of students in class, their participation in discussions on specific topics, as well as the success in the midterm exams and the final exam are assessed separately. The final grade is the result of the student overall enga			
Special remarks			Midterm test (written) and the final exam is oral. Based on all the tests the final score is obtained.			
Comment			Additional information on the course: provided by the professor, prof. dr Ljubinko Dedović
